Preparing your data for analysis is often time-consuming manual work - and, to be honest, quite tedious. With Tableau Prep, you can do your data preparation just as efficiently as you do your analysis with Tableau Desktop.

Agenda

- Tableau Prep demonstration
- Connecting to data
- Exploring data
- Calculated fields
- Aggregations
- Joins and unions
- Pivoting
- Publication of data sources

Our trainers consistently receive high scores from the course participants: <https://til.bi/2xsyNNE>
